

Group 13 // The Greatest Showroom [Gorton]

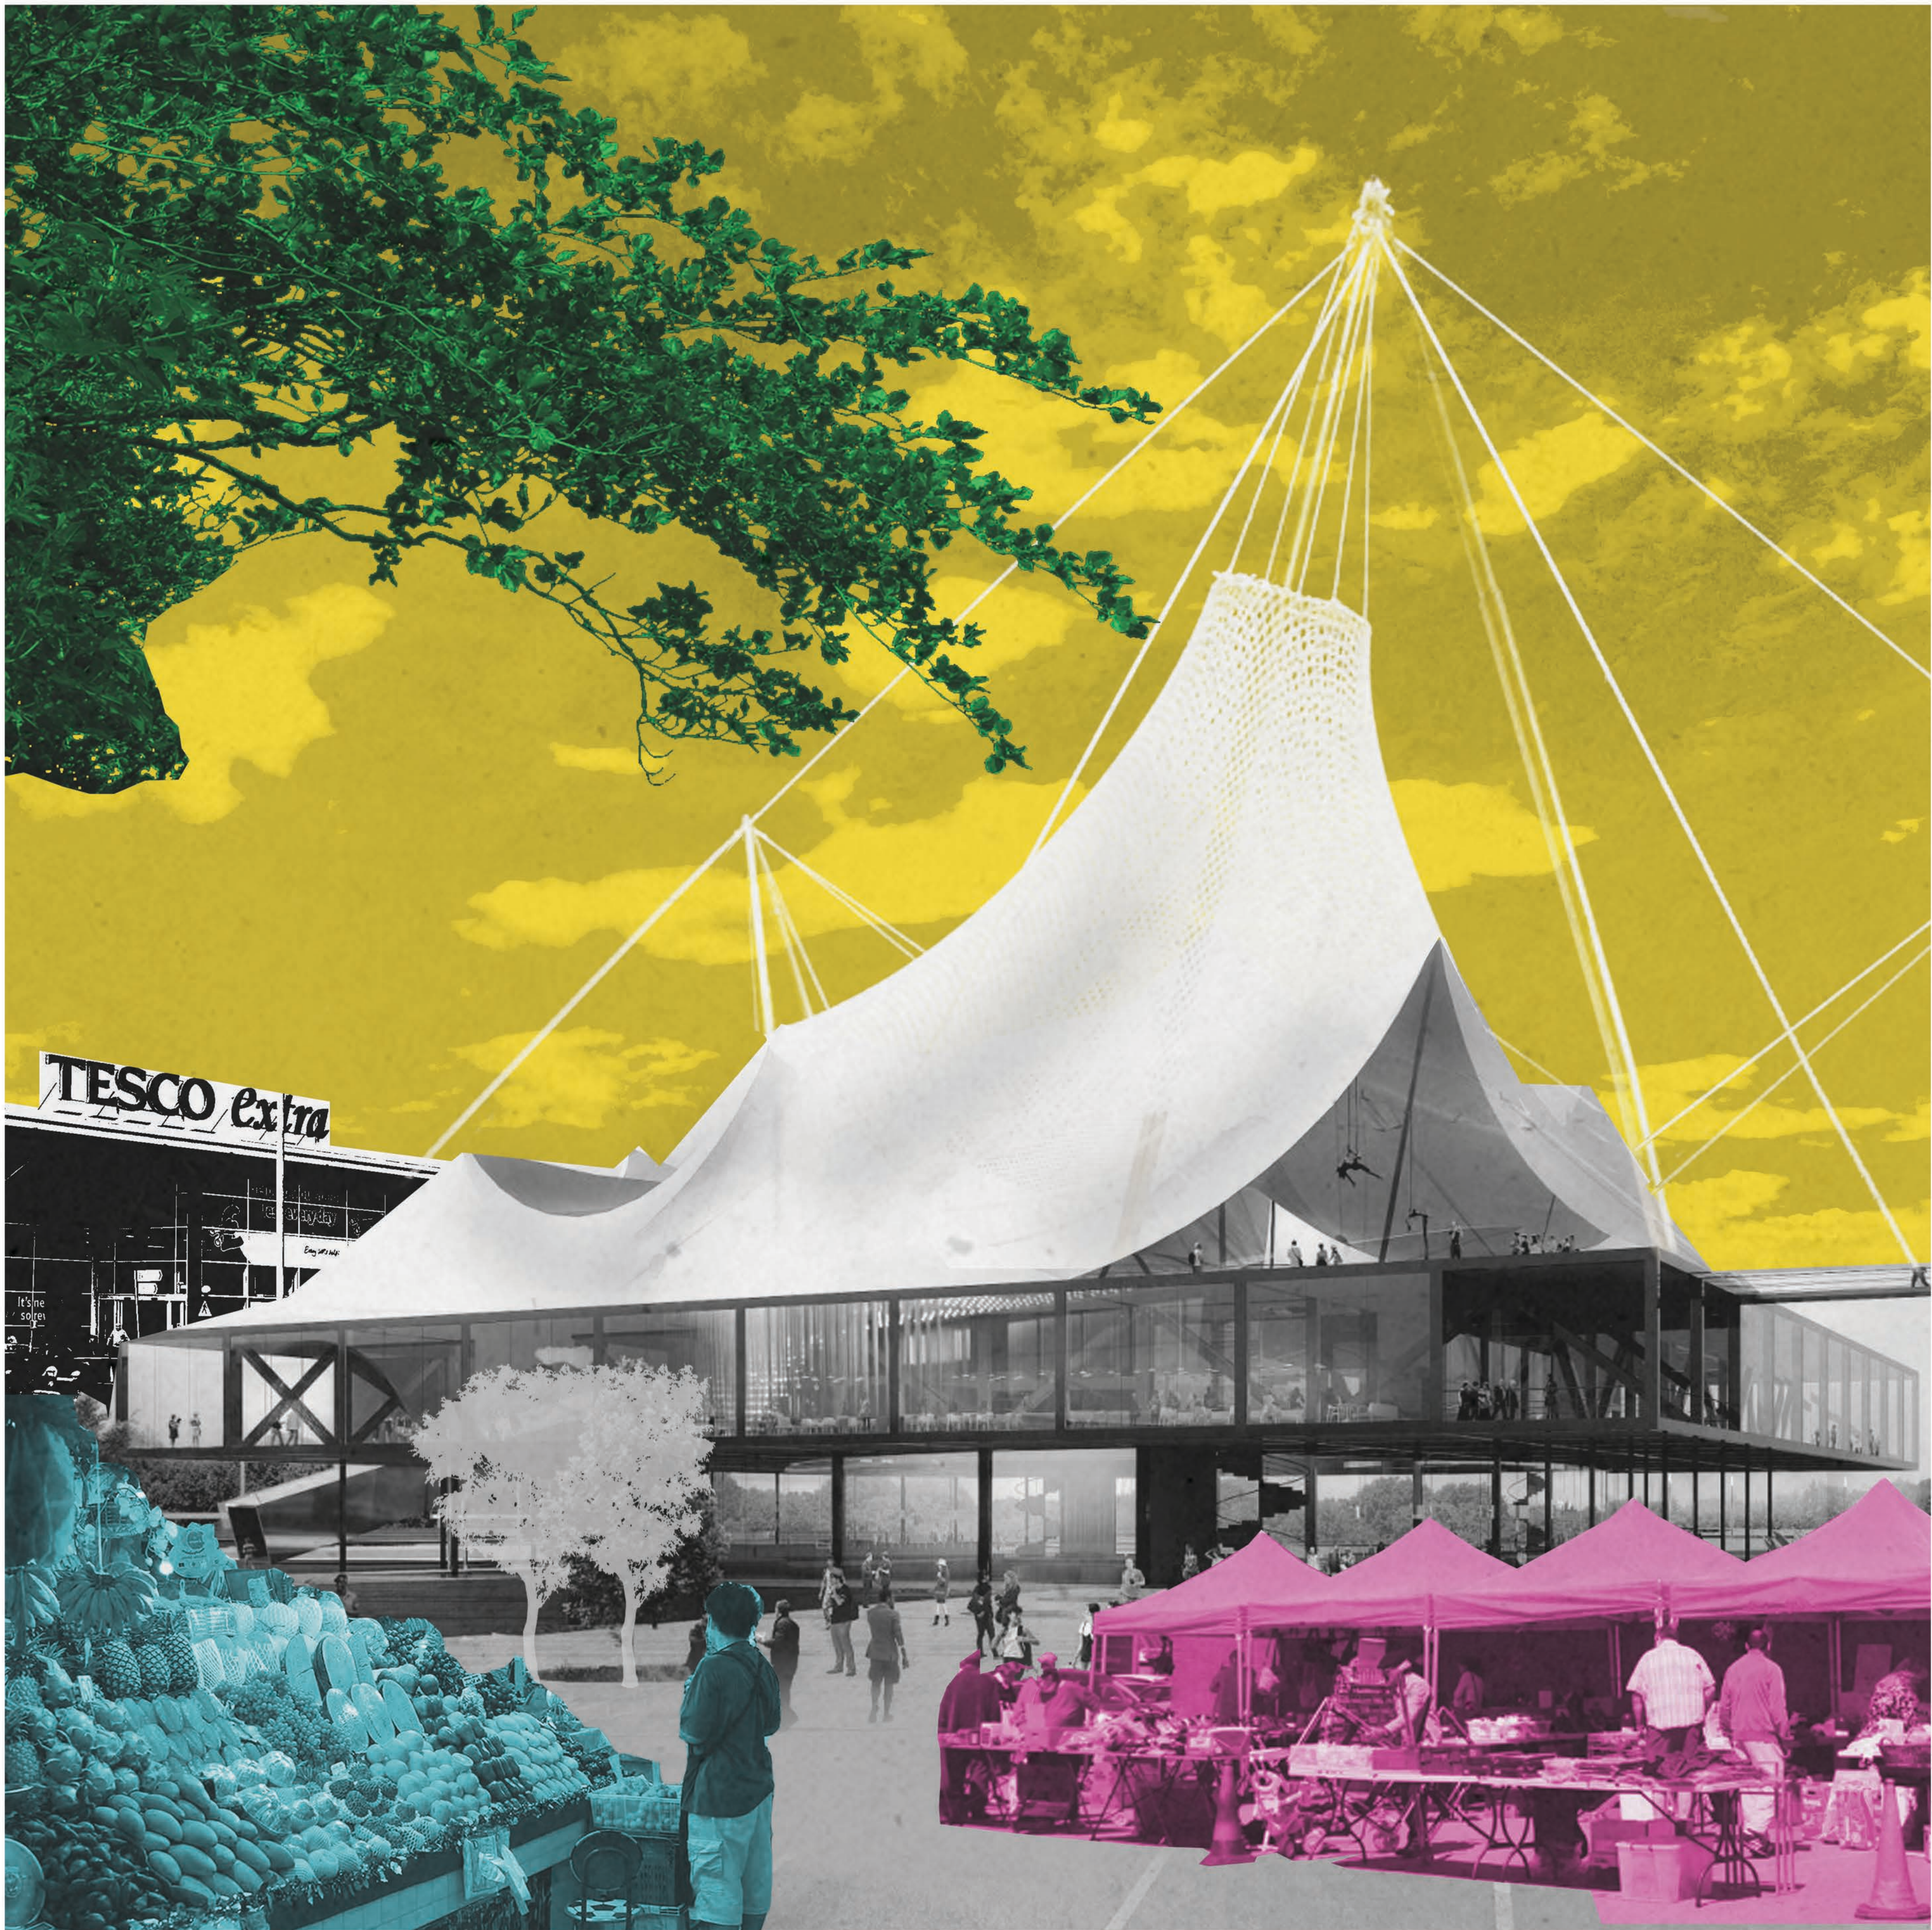

We envision a multi-use venue to enhance Gorton's community spaces and current market. Identifying the negative space and taking inspiration from a circus tent, we propose a three storey building; the two bottom floors are for retail and markets, and the top tent-like area is for performances and sports. It creates a focal point for the community and provides a range of activities for young and old people alike. It also accommodates for greenery, enhancing biodiversity and drawing wildlife towards the area. The new creative hub will also boost the economy of local businesses and draw people to Gorton.
